CONTENTS VOLUME 59 JANUARY 1983

page 1 AL-SALEH, A. A. Effects of temperature on the replication of chromosomal DNA of *Xenopus laevis* cells

13 CROSS, N. L. Isolation and electrophoretic characterization of the plasma membrane of sea-urchin sperm

27 BIRD, J., PORTER, E. K. and DICKINSON, H. G. Events in the cytoplasm during male meiosis in *Lilium*

43 NAKATSUJI, N. and JOHNSON, K. E. Conditioning of a culture substratum by the ectodermal layer promotes attachment and oriented locomotion by amphibian gastrula mesodermal cells

61 NAKATSUJI, N. and JOHNSON, K. E. Comparative study of extracellular fibrils on the ectodermal layer in gastrulae of five amphibian species

71 YAMAOKA, I., YAMAMOTO, K., URABE, N. and NAGATANI, Y. Osmium-impregnation patterns of the Golgi complex in the epididymal epithelial cells of castrated and testosterone-injected mice

81 CROSSLEY, R. and HOBERTON, D. V. Characterization of proteins from the cytoskeleton of *Giardia lamblia*

105 LEVINSTONE, D., EDEN, M. and BELL, E. Similarity of sister-cell trajectories in fibroblast clones

121 ISBERNER, P. and CLEFFMANN, G. Polysomal organization in growing and resting cultures and its relation to protein synthesis in *Tetrahymena*

133 MATSUI, H., ITO, T. and OHNISHI, S.-I. Phagocytosis by macrophages. III. Effects of heat-labile opsonin and poly(L-lysine)

145 DOWNES, C. S., JOHNSON, R. T. and YEW, F. F. Effects of conditioned medium on nucleoside uptake, cell cycle progression and apparent DNA repair

159 KUKULIES, J. and KOMNICK, H. Plasma membranes, cell junctions and cuticle of the rectal chloride epithelia of the larval dragonfly *Aeshna cyanea*

183 LORD, P. G. and WHEALS, A. E. Rate of cell cycle initiation of yeast cells when cell size is not a rate-determining factor

203 LAROY, K. and WEEKS, G. Inhibition of *Dictyostelium discoideum* differentiation in monolayers *in vitro* by endogenous and exogenous lectins

213 FORRESTER, J. V., LACKIE, J. M. and BROWN, A. F. Neutrophil behaviour in the presence of protease inhibitors

231 ANDREWS, P., MILSOM, D. W. and STODDART, R. W. Glycoconjugates from high endothelial cells. I. Partial characterization of a sulphated glycoconjugate from the high endothelial cells of rat lymph nodes

245 MCCOY, J. P., SCHRIER, D., LOVETT, E. J., JUDD, W. J. and VARANI, J. Hyperimmune human ABO blood-typing sera: Reactivity with murine laminin and cytotoxicity for metastatic murine tumour cells

257 WESTWOOD, J. T. and WAGENAAR, E. B. Chinese hamster cells can be reversibly blocked before mitosis with the protein synthesis inhibitor, emetine
